

Bill Divider

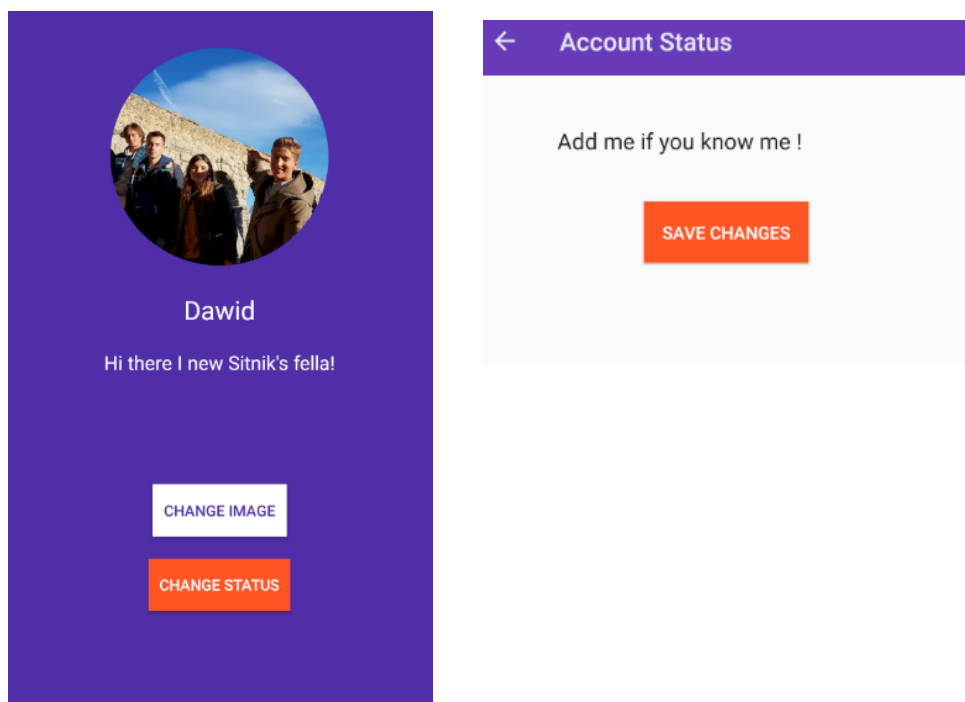

Bill Divider is a great way to share bills and make sure that everyone gets paid back. Use Bill Divider to divide household bills with roommates, to figure out costs for a group vacation, or just to remember when a friend spots you for lunch. It is Android application where you can view your balances, track spending trends and much much more!

How to use Bill Divider:

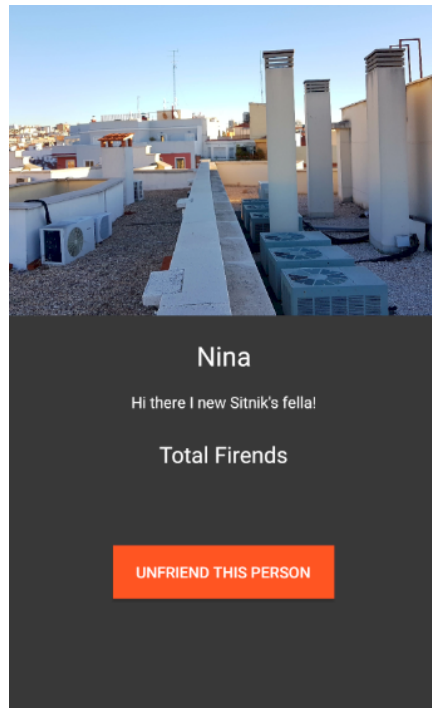

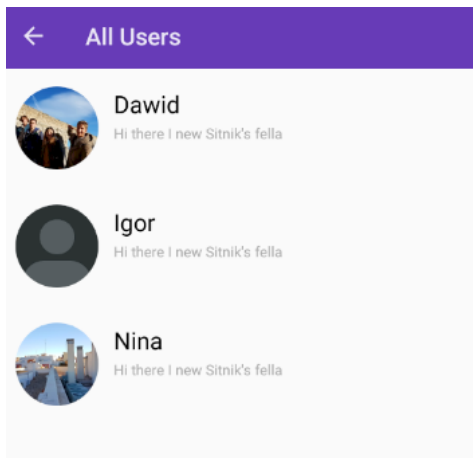

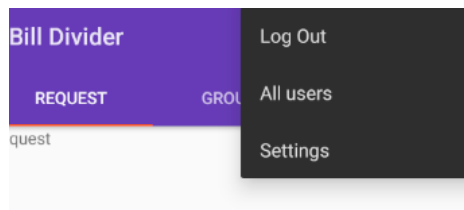

1.Create account

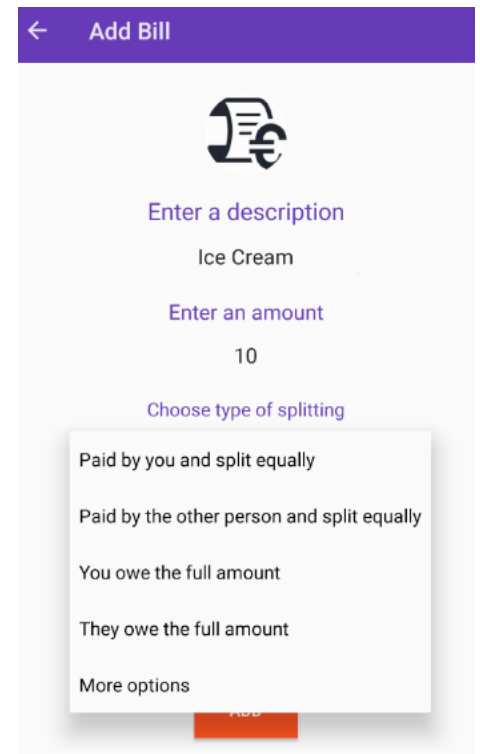

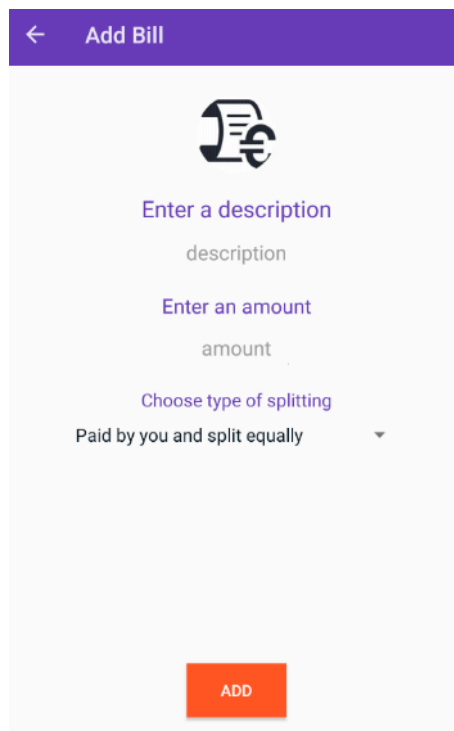

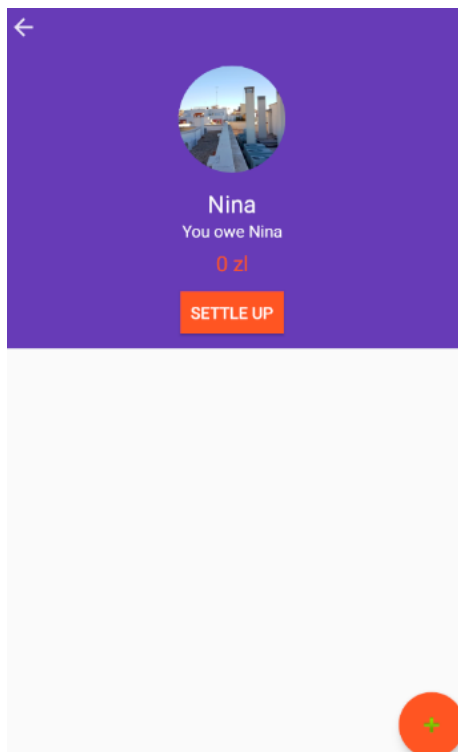

2. Change your profile image and status

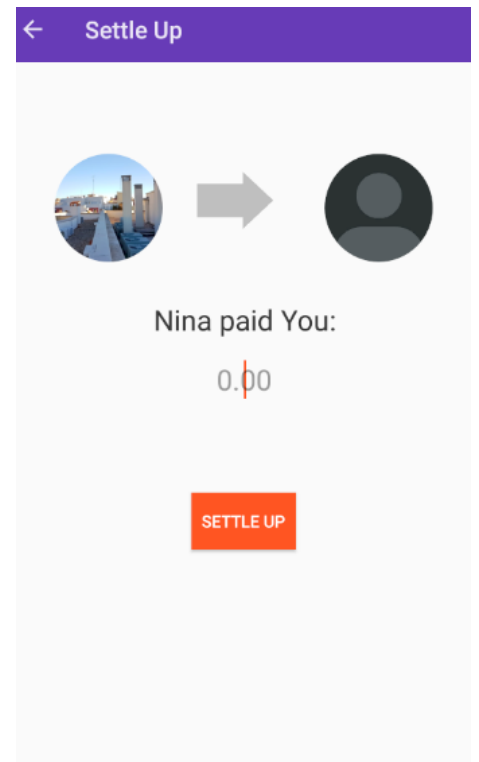

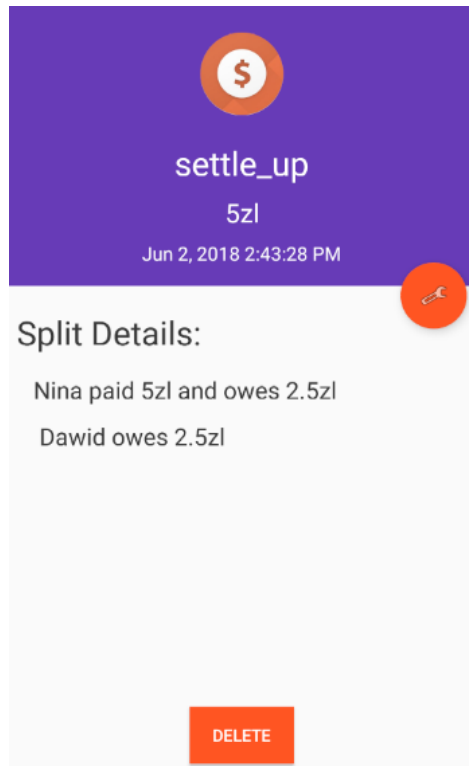

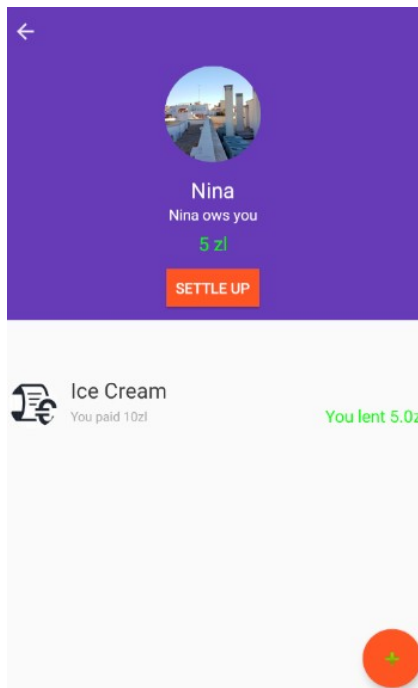

3. Find your friends

4. Add a bill or settle up

5. If you want to share bills with more than just one user you can create a group and do the same with them
